FIRE DAMAGES
SPENCER FARMER
FARMER OVER $12,000

Fire of unknown origin which swept
the interior of the large Spencer Farm
home and barn, 23 miles west of Deaver,
Saturday night, caused a loss of equipment
and stock which is estimated by local
farmers and stockmen as being in the
neighborhood of $12,000. The fire was
discovered by a W. A. Bowers, who
noticed smoke coming from the barn
of the building. Though the fire was
fully developed in the barn when Bowers
reached the scene, it was quickly
out and not much damage was done to
the farm. All livestock was removed
safely. The owner, Mr. J. J. Spencer,
was at home and took charge of the
safety of his livestock. The cause was
unknown.

Joe Christy Elected
Sophomore President

In the sophomore class election of officers for the second semester at the last class meeting, February 3, Mr. Joe Christy was elected
senior class president of the mines.
Frank Smith won the elections for the
class president for the second
semester.

In the junior class election of officers for the second semester at the last class meeting, February
17, the following were elected: Mr.
Fred Host, class president; Mrs.
Flora Host, class vice president; and
Mrs. Mary Host, class secretary.

First Sergeant Cope

John Maxwell, editor, Forest Hall
newspaper, recently received
the following letter from his
son, John Cope, who is a first
year student of the State
College at Ashland:

Dear Dad:

I received your letter today and
was glad to hear from home. I
have been very busy since the
beginning of the term and
have had a lot of work to do.
I have been studying hard and
have been making good grades.
I hope you are well.

Your loving son,

Foreman, the act, and he is now working
regularly for the firm and
usually has several visitors
in his office.

The funerals and allowances
should be handled, it is
according to the will and
courtesy of the late Mr. B. C.
McGinnis.

FIVE GRID STARS SUSPENDED FROM WASHINGTON UNIV.

SPRINGFIELD, Wash., Feb. 6—Two Washington Students from the University were suspended from school activities for a period of one year. The students concerned are said to have been involved in an altercation which resulted in the injury of one of the suspended students. The action of the University authorities is the result of a recommendation made by the University's Committee on Disciplinary Matters.

UNIQUE OBSERVATORY STARTED BY HARVARD

Manhattan, S. Dak.—With the sunset of a permanent observatory, on which the South African government is erecting the Harvard observatory at this station, are the following facts concerning the establishment of the observatory.

The observatory is being built by the Harvard University, which has been operating a small observatory on the same site for many years. The new observatory will be equipped with the latest instruments and will be used for the study of the earth's magnetic field and the investigation of the sun's movements. The site is selected due to its location on the equator, which is ideal for astronomical observations.

W. F. F. Pyle, Director

The University club has been holding meetings every Monday night during the past year. The meetings are held every other week, but many times the dinners failed to attract the expected number of members.

Several officers were elected recently. Prof. W. F. Pyle, president; Dr. E. B. S. Pye, secretary; and Prof. E. H. Stone, treasurer. At these meetings are present a number of officers, either in person or by proxy. They are all interested in the work and in the activities of the club.

PERSPECTIVE COOLIDGE

President Coolidge released a
statement on the events of today.

Yesterday, President Coolidge
released a statement on the
development of the present sit-
tuation. The President said that
the situation is only a prelude to
a new era of growth and pro-
gress. He emphasized the need
for continued efforts to improve
the economy and to promote
international cooperation.

The President also expressed his
sympathy for the victims of the
recent floods in the Midwest. He
urged the country to continue
its efforts to aid those affected
by the disaster.

Greek Initiations

Sigs Chi

Beta Tau Chi, the University of Colorado chapter of Sigma Chi, announced the initiation of Edward Lavat, Hueston J. Smith, Dean L. Reeves and George McElheny, all seniors. The initiates were introduced to the chapter at a banquet held in the chapter house on Friday evening, February 24. The new members were welcomed by Prof. C. P. Davis, president of the chapter, and by Prof. C. P. Davis, Jr., vice president. The initiates were also greeted by their parents and other guests who attended the banquet.

Rho Chi Omega

Theta Chi, the University of Colorado chapter of Rho Chi Omega, announced the initiation of the following new members: Edward B. Black, William R. Johnson, and Donald H. Miller. The initiates were introduced to the chapter at a banquet held in the chapter house on Friday evening, February 24. The new members were welcomed by Prof. C. P. Davis, president of the chapter, and by Prof. C. P. Davis, Jr., vice president. The initiates were also greeted by their parents and other guests who attended the banquet.

The annual initiation banquet of Lambda Chi Alpha was given by the active chapter on Saturday evening, February 23, in the chapter house. The initiates were welcomed by Prof. C. P. Davis, president of the chapter, and by Prof. C. P. Davis, Jr., vice president. The initiates were also greeted by their parents and other guests who attended the banquet.

Kappa Alpha

The annual initiation banquet of Kappa Alpha was given by the active chapter on Saturday evening, February 23, in the chapter house. The initiates were welcomed by Prof. C. P. Davis, president of the chapter, and by Prof. C. P. Davis, Jr., vice president. The initiates were also greeted by their parents and other guests who attended the banquet.

Baptist

Dr. Lory Speaks At Farmers Institute

President Larry L. Mcrindal, Mr. Cha White, of the University of Colorado, and Mr. Robert L. Mcrindal, of the University of Colorado, spoke at the Farmers' Institute held Fort Morgan and Benson High School on Thursday. Mr. Mcrindal talked on "The Economic Phase of Agriculture and Farming," and Mr. White discussed the subject, "The Outlook for the Dairy Farmer." The topic of the discussion was "The Outlook for the Dairy Farmer," and Mr. Mcrindal talked on "The Economic Phase of Agriculture and Farming." The discussion was very interesting and informative, and the audience was greatly impressed with the knowledge and experience of the speakers.

AGRICULTURAL STUDENTS HAVE MANY VARIED OPPORTUNITIES

"Reports Show That Over Twenty-Five Per Cent of Graduates Return Home," Says Dr. Shinn

Agricultural college training has not only provided employment and leadership in a number of fields, but also evidence that agricultural college graduates are eager to work and live in the agricultural college and the communities of which they are a part. Dr. Shinn, in charge of agricultural college training for the Colorado State College of Agriculture, emphasizes in his report to the students that these graduates are willing to participate in their line of work.

Although training for scientific agriculture is very important, Dr. Shinn points out that the agricultural college is the only institution that combines agricultural science, teaching, and research in the field of education, and this is done very well in order to prepare the student for the work of the agricultural college and its related work.

The students were in hearty accord with the statement that the agricultural college was not well enough understood by the people who are directly connected with it.

The percentage of students who have entered the college indicates that the college is well enough understood by the people who are directly connected with it.

These data," Doctor Shinn says, "are sufficiently broad to prepare students for the work of the agricultural college and to continue to make a successful contribution to the advancement of agriculture in the country.

The fact that these curricula are not well understood by the people who are directly connected with it indicates that the college is not well enough understood by the people who are directly connected with it.

The fact that these curricula are not well understood by the people who are directly connected with it indicates that the college is not well enough understood by the people who are directly connected with it.

Taylor Hughes Attends Meeting of Committee

Three important changes have been made to the football rules during the current season. The most marked change is the elimination of the penalty for a loss of yards. Instead, there is now a penalty for a loss of yards on a pass play. The second change is the elimination of the use of any other form of a punt kick. The third change is the elimination of the use of any other form of a punt kick.

The new rule states that if the ball is dropped from the center's hand before the first attempt is made to kick it, it shall be kicked from the line of scrimmage. If the ball is dropped after the first attempt is made to kick it, it shall be kicked from the point of recovery.

The new rule also states that if the ball is kicked from the center's hand before the first attempt is made to kick it, it shall be kicked from the line of scrimmage. If the ball is kicked after the first attempt is made to kick it, it shall be kicked from the point of recovery.

The new rule further states that if the ball is kicked from the center's hand before the first attempt is made to kick it, it shall be kicked from the line of scrimmage. If the ball is kicked after the first attempt is made to kick it, it shall be kicked from the point of recovery.

The new rule also states that if the ball is kicked from the center's hand before the first attempt is made to kick it, it shall be kicked from the line of scrimmage. If the ball is kicked after the first attempt is made to kick it, it shall be kicked from the point of recovery.
