SUSTAINABILITY - GREEN TAILGATING TIPS

Colorado State University is proud of its continual efforts to improve campus sustainability, especially on game days. Here are some quick tips to help do your part:

- **USE PROPANE AS YOUR GRILLING METHOD OF CHOICE.** Why: Clean burning option.
- **THROW SOME VEGGIES ON THE GRILL!** Why: Healthy and smaller carbon footprint than meat.
- **BRING A PORTABLE RADIO.** Why: Keeping your car on to use the radio is bad for your engine and wastes gas.
- **BICYCLE.** Why: You can easily bike to campus on game day, helping reduce vehicle emissions.
- **CARPPOOL.** Why: Carpooling to the game will reduce the amount of emissions you and your friends' cars are emitting into the air, plus it can help you save money in both fuel costs and parking fees.
- **USE REUSABLE CUPS.** Why: Plastic and Styrofoam cups are wasteful and can be significant contributors to landfills. The same is true for utensils, plates and decorations.
- **RECYCLE!** Why: Recycling saves energy and resources that go into making new products. It also lessens the amount of waste that ends up in a landfill.
- **SHOP LOCAL.** Why: Shopping local means that your food and/or drink has traveled significantly fewer miles to get to you and thus reduces the environmental impact.
