

**SUPPLEMENT to Western USA/Canada/Mexico BUTTERFLY ATLAS**  
**24 February 1999 Updated Version**  
**Ray E. Stanford and Paul A. Opler**

**CONTENTS:** This 28-page supplement lists all of the more than 10020 new records received since February 1993, including 554 STATE/PROVINCE records [mostly Mexico] and a few corrections/deletions. Thanks to Neil Dankert of Nebraska for putting us over 10,000 ! There are 54 additional species and 40 deletions, bringing the total to 1061.

**FORMAT:** Prepared on Macintosh, Clarisworks 5.0.

**STATISTICS:** The entire covered region stands at about 83% of projected numbers of species per county [state in Mexico; province in Canada], although several States are over 90% [NV 96.1%, CA 96.0%, AZ 95.4%, UT 93.1%, CO 92.9%, NM 91.3%, OR 90.8%]. The following map shows counties, provinces and Mexican states which are known at the 90% level or better. Clearly the most work is needed in the prairie states and Mexico east of Sonora and Sinaloa. States/provinces with the most additional species since February 1993: SIN 98, NL 67, DGO 49, CHIH 41, SON 37, COAH 34, TAM 32, TX 17, OK/SASK/AB 12, BC 10, CO/MT 9, ID/MAN/NE 8, AZ/NM 7, BCS/WY 6, UT 5, BCN/WA 4, CAKS/ND/OR/SD 3. Only NV lacks additional species since 1993.

**COUNTY ABBREVIATIONS:** We have tried to make these unambiguous for each state, but not necessarily among states [e.g. CC CA is Contra Costa, CC CO Clear Creek]. WashWY is Washakie, WashNV is Washoe, otherwise Wash is Washington. Here are a few which might be tough to identify: Chke=Cherokee, Colu=Columbia, Cmch=Comanche, Jksn=Jackson, Mtgu=Montague, Mtgy=Montgomery, Shdn=Sheridan, Shmn=Sherman.

**FINAL COMMENTS:** 1. By nature, good people desire to know. Leonardo da Vinci.  
2. Know whom I have believed. 2 Timothy 1:12. [Know whom we have believed also!]  
3. Those who cannot remember the past are condemned to repeat it. George Santayana.  
4. To remain silent, when they know they should speak, makes cowards of men. A.Lincoln.

**WNA Butterfly Taxa with Net New Records. Feb 1993 - 24 Feb 1999. X = COMPLEX. RES.**

Butterfly County Records (for Stanford/Opler Atlas) obtained by RES from museums and private collections in Idaho and Utah, 16-22 March 1994. Abbreviations: RES = Ray E. Stanford; BYU = Monte Bean Museum of Natural History, Brigham Young University, Provo, UT; CAM = Clifford A. Miles; JMJ = Joel M. Johnson; KBT = Kenneth B. Tidwell; BSU = Dept of Biology, Boise State University, Boise, ID; SSM = Stephanie S. McKown; GMS = George M. Stephens; ACI = Albertson College of Idaho, Orma J. Smith Museum of Natural History, Caldwell, ID. All determinations are by RES except as noted; collector names are spelled out the first time cited only; STATE = state record; ! or !! means weird!

Pyrrhopyge araxes arizonae:

1. Iron Crk Cg, NM 152 just W of Emory Pass, GRANT Co, NM, 25 Aug 1985, Wells and Whiting; 1 male. BYU.

Epargyreus clarus clarus:

2. Kellys Cn, MADISON Co, ID, 25 Jun 1981, CAM, 1 fresh male. BYU.
3. Logan, CACHE Co, UT, 12 Jul 1968, R. Kirkland, 1 worn male. BYU.
4. Orofino, CLEARWATER Co, ID, 19 Jun 1986, KBT. KBT, det KBT.
5. Black Cn Dam, GEM Co, ID, 27 Jun 1976, R. W. Jue. BSU. 1 worn male.
6. 1 mi N of Adrian, MALHEUR Co (northern), OR, 26 May 1974, C. Brady, 1 male.

Thorybes bathyllus:

7. Osage Cg, 13 mi W of Bartlesville, OSAGE Co, OK, 22 Jul 1981, K. Burnham. BYU. 1 female.

Thorybes pylades:

8. Ogden Cn, WEBER Co, UT, 20 Jun 1932, Ashby D. Boyle. BYU. 1 male.
9. Waterville, DOUGLAS Co, WA, 13 Jun 1977, S. Halbert; 1 male. ACI.

Erynnis icelus:

10. near Boise, ADA Co, ID, Jul 1959, worn female. ACI.

Erynnis pacuvius pacuvius:

11. 3 mi NNW of Poncha Pass, San Isabel NF, CHAFFEE Co, CO, 26 Jun 1977, R. E. Howard, 1 worn male. BYU.

Erynnis persius fredericki:

12. S Fk Ogden Rvr, CACHE Co, UT, 9000', 1 Aug 1964, TJB (who?), 1 male examined with microscope. BYU.
13. Kyle Cn, Spring Rg, CLARK Co, NV, 3 Jun 1984, SSM. SSM, 1 male examined with microscope by SSM and RES.

Pyrgus centaureae loki:

14. Beaver Crk, DAGGETT Co, UT, 23 Jul 1933, ADB, 1 male. BYU.

Pyrgus ruralis ruralis:

15. near Boise, ADA Co, ID, Jul 1957, worn male. ACI.

Pyrgus scriptura:

16. Old Woman Plateau, SEVIER Co, UT, 12 Jun 1992, JMJ, 1 fresh female. JMJ.

Pyrgus communis:

17. 9 mi NE of Gooding, GOODING Co, ID, 10 Aug 1974, M. Burnum, 1 male. BSU.
18. Payette, PAYETTE Co, ID, 20 Jul 1958, Wayne Chatterton, 1 pair. BSU.
19. Mann Crk, WASHINGTON Co, ID, 28 May 1966, E. Yensen. ACI.

Heliopetes ericetorum:

20. Adrian, MALHEUR (NORTH) Co, OR, 1 Jul 1957, WC, 2 males. BSU.

Pholisora catullus:

21. 9 mi NE of Gooding, GOODING Co, ID, 10 Aug 1974, MB, 1 male. BSU.

Piruna pirus:

22. Dry Cn, JUAB Co, UT, 5 Aug 1904, Thomas U. Spalding, 1 worn male. BYU.

Hylephila phyleus:

23. Van Horn, CULBERSON Co, TX, 21 Nov 1971, Jack L. Harry, 1 worn female. BYU.

Hesperia juba:

24. 7 mi SW of Moore, BUTTE Co, ID, 3 Sep 1977, Mary H. Clark, 1 worn female. BSU.
25. Squaw Butte, Emmett, GEM Co, ID, 27 May 1933, H. M. Tucker. ACI.
26. Orchard, ADA Co, ID, 10 Jun 1975, Chris Hagan. ACI.
27. 8 mi ENE of Payette, PAYETTE Co, ID, 20 Jun 1956, WC. BSU.

Bf CRs ex ID/UT collections, p2

Hesperia juba (continued):

28. Mann Crk, WASHINGTON Co, ID, 28 May 1966, EY. ACI.
29. North Platte, LINCOLN Co, NEBRASKA, STATE!, EAST, 1 Aug 1985, Robert L. Chehey, 1 female. ACI, det RLC and RES together, NOT a dubious record!

Hesperia comma harpalus:

30. Middleton, CANYON Co, ID, 20 Jul 1958, WC, 1 fresh male. BSU.
31. Brownlee Summit, WASHINGTON Co, ID, 18 Jul 1964, RLC, 1 fresh male. ACI.

Polites sabuleti:

32. Mores Crk, 20 mi NE of Boise, BOISE Co, ID, 5 Sep 1974, M. Lucky. BSU.
33. 9 mi NE of Gooding, GOODING Co, ID, 10 Aug 1974, M. Burnum. BSU.
34. Macks Crk, ELMORE Co, ID, 9 Jul 1971, D. W. Kriz. BSU.
35. Black Cn Dam, GEM Co, ID, 27 Jun 1976, R. W. Jue. BSU.
36. Bountiful, DAVIS Co, UT, 8 Sep 1958, W. Levi Phillips. RES (gift of CAM).
37. Coalville, SUMMIT Co, UT, 13 Sep 1955, WLP. RES (gift of CAM).
38. Provo, UTAH Co, UT, 4 Sep 1978, WLP. RES (gift of CAM).
39. Heber City, WASATCH Co, UT, 15 Aug 1982, CAM. RES (gift of CAM).
40. N of Nephi, JUAB Co, UT, 12 Jun 1992, Joel M. Johnson, 1 fresh male. JMJ.

Polites draco:

41. Cordway Flats, DAGGETT Co, UT, 26 Jul 1990, Kenneth B. Tidwell. KBT.
42. Scout Mtn, BANNOCK Co, ID, 22 Jul 1972, RLC. ACI.
43. S Fk City Crk, 9 mi W of Junction, 8400', PIUTE Co, UT, 21 Jun 1987, S. M. Clark, 1 fresh male. BYU.

Polites themistocles:

44. Hobrook Crk, San Isabel NF, ALAMOSA Co, CO, 8 Aug 1977, R. E. Howard, 1 female. BYU.

Ochlodes sylvanoides:

45. Black Cn Dam, GEM Co, ID, 5 Aug 1976, RWJ. BSU.
46. Payette, PAYETTE Co, ID, 3 Sep 1953, WC. BSU.
47. Brownlee Summit, WASHINGTON Co, ID, 18 Jul 1964, RLC. ACI.
48. 7 mi ENE of Junctura, MALHEUR (northern) Co, OR, 13 Jul 1976, RWJ. BSU.

Paratrytone snowi:

49. Oak Crk, San Isabel NF, FREMONT Co, CO, 8 Aug 1977, REH, 1 worn male. BYU.

Amblyscirtes vialis:

50. Panchuela Cg, nr Cowles, SAN MIGUEL Co, NM, 2 Jul 1977, REH, 1 male. BYU.

Parnassius clodius:

51. Maple Cn at Box Cn, SANPETE Co, UT, 11 Jun 1987, SMC, 1 fresh male. BYU.
52. Knox Cn, 6000', POWER Co, ID, 29 Jun 1972, RLC. ACI.
53. Boise (Straughn St), ADA Co, ID, 28 Jul 1975, C. M. Sower, 1 worn male. BSU.

Parnassius phoebus:

54. Wasatch Plateau, Skyline Drive, SANPETE Co, UT, 11 Jun 1987, SMC, 1 fresh male. BYU.
55. Knox Cn, 6000', POWER Co, ID, 29 Jun 1972, RLC. ACI.

Papilio polyxenes asterius:

56. Osage Cg, 13 mi W of Bartlesville, OSAGE Co, OK, 30 Jul 1981, KB, 2 females. BYU.

Papilio zelicaon:

57. Caldwell, CANYON Co, ID, 2 May 1926, H. M. Tucker. ACI.
58. Charlie Crk, nr Emida, BENEWAH Co, ID, 2 Jun 1957, RLC. ACI.
59. Macks Crk, ELMORE Co, ID, 9 Jul 1971, DWK. BSU.

Papilio indra indra:

60. Pistol Crk, 1800', VALLEY Co, ID, 26 Jun 1962, RLC, 1 fresh male. ACI.

Papilio glaucus:

61. Osage Cg, 13 mi W of Bartlesville, OSAGE Co, OK, 30 Jul 1981, KB, worn male. BYU
62. TYLER Co, TX, JMJ. JMJ - write him if details are needed.

Papilio rutulus:

63. Mann Crk, WASHINGTON Co, ID, 28 May 1966, EY. ACI.

Bf CRs ex ID/UT collections, p3

Papilio rutulus (continued):

64. 6 mi E of Emmett, GEM Co, ID, 27 Jun 1976, RWJ. BSU.

Papilio eurymedon:

65. Raft Rvr Mtns, BOX ELDER Co, UT, 17 Jun 1928, Vasco M. Tanner, small worn female. BYU.

66. Brawley, IMPERIAL Co, CA, 26 Jun 1967, SSM, 1 very worn male (obviously a stray but readily identifiable). SSM.

Papilio multicaudatus:

67. Black Cn Dam, GEM Co, ID, 27 Jun 1976, RWJ, 1 fresh male. BSU.

Eurytides marcellus:

68. LIBERTY Co, TX, JMJ. JMJ - write him if details are needed.

Neophasia menapia:

69. 5 mi W of Meridian, ADA Co, ID, 15 Sep 1977, P. Brown, 1 worn female. BSU.

Pontia beckerii:

70. Gold Fk Crk, VALLEY Co, ID, 21 Aug 1993, A. M. Lippincott, 1 fresh male. GMS.

71. Black Cn Dam, GEM Co, ID, 18 Apr 1953, RLC. ACI.

72. Payette, PAYETTE Co, ID, 25 Mar 1956, WC, 1 fresh female. BSU.

- 257. Wasatch Mtn SP, WASATCH Co, UT, 15 Aug 1982, CAM, 1 fresh male. BYU.
- 258. Canadian Rvr, Dumas, MOORE Co, TX, 1 Oct 1977, J. Schwab, 1 worn female. BYU.
- 259. 10 mi S of Fritch, HUTCHINSON Co, TX, 1 Oct 1977, J. Schwab, 1 male. BYU.
- 260. BINGHAM Co, ID, Jul 1962, B. Carlson, 1 fresh male. BYU.
- 261. Macks Crk, ELMORE Co, ID, 9 Jul 1971, DWK, 1 worn male. BSU.
- 262. nr Paducah, COTTLE Co, TX, 6 Jun 1973, SSM. SSM.
- 263. S Willow Crk, Stansbury Mts, TOOELE Co, UT, 10 Jul 1973, L. Paul Grey, 1 worn female. RES collection (ssp lahontani).

Adelpha bredowii eulalia:

- 264. Amarillo, POTTER Co, TX, 30 Aug 1977, W. Langham, 1 worn male. BYU.

Coenonympha tullia ochracea:

- 265. S Willow Crk, TOOELE Co, UT, 12 Jul 1984, CAM. CAM, series of males.
- 266. Eureka, JUAB Co, UT, 18 May 1982, JMJ, 1 fresh male. JMJ.
- 267. Clear Crk Cg, Raft Rvr Mts, BOX ELDER Co, UT, 22 Jun 1983, C. R. Nelson, long series with all intermediates and typical ochracea and ampelos. BYU.
- 268. BURLEIGH Co, ND, series (NOT inornata!), JMJ. Find out more!

Coenonympha tullia ampelos:

- 269. Black Cn Dam, GEM Co, ID, 27 Jun 1976, RWJ. BSU.

Bf CRs ex ID/UT collections, p9

Coenonympha tullia ampelos (continued):

270. Mann Crk, WASHINGTON Co, ID, 28 May 1966, EY. ACI.

Cercyonis pegala:

271. WASHINGTON Co, ID, 3 Jul 1986, KBT. KBT - write him if details are needed.

272. Black Cn Dam, GEM Co, ID, 18 Apr[sic!] 1953, WC, 1 worn female. BSU.

273. Cedar Mtn, SW of Green Rvr, SWEETWATER Co [sic] WY, Jul 1965, GMS, 1 fresh female. GMS.

Cercyonis oetus:

274. Black Cn Dam, GEM Co, ID, 5 Aug 1976, RWJ. BSU.

275. Brownlee Summit, WASHINGTON Co, ID, 18 Jul 1964, RLC. ACI.

Cercyonis sthenele masoni:

276. Morgan, MORGAN Co, UT, 18 Jul 1963, 5000', TJB (who?), 1 fresh male with a slight suggestion of a red flush around the largest DFW spot. BYU.

277. Ogden Cn, WEBER Co, UT, 14 Aug 1933, ADB, 1 male, no red flush. BYU.

Cercyonis meadii ssp:

278. Idlewild, RIVERSIDE Co, CA, STATE!, BIZARRE!, 28 Jun(!) 1985, SSM. SSM - I do not doubt this record, a fresh female, but it must have been reared and accidentally released by someone (Emmels live only yards away). The nearest population is in the Hualapai Mtns of AZ, where it flies in Aug. Satyrids basically do not stray of their own volition, so this one must have had help somehow. Like Calycopis cecrops in CO, Euptoieta hegesia in ID, Anartia jatrophae in UT, and Eurema proterpia in OR. These records must not be ignored, but are accidentals and should be treated with \*\*s.

Coenonympha haydeni:

279. Provo Cn, UTAH Co, UT, 24 Jul 1962, TJB (who?), 1 fresh male. BYU - this specimen is almost obviously mislabeled, so I do not accept it. This sp could possibly be found in extreme northern UT, where it would be a STATE record, but, again, satyrids do not stray, so UTAH Co is not likely.

Erebia epipsodea:

280. Provo Cn, UTAH Co, UT, 12 Jul 1973, VMT, 1 worn male. BYU - another nearly impossible record, so not accepted. The big question is why doesn't this species occur widely in the UT mountains? Quien sabe, amigos.

281. Cedar Mtn, SW of Green Rvr, SWEETWATER [sic] Co, WY, Jul 1965, GMS, 1 fresh female. GMS.

Neominois ridingsii:

282. Crab Crk, T12SR4ES18, OWYHEE Co, ID, 5 Jul 1993, GMS, fresh males. GMS.

283. Seely Crk, SANPETE Co, UT, 12 Jul 1979, KBT, fresh males. KBT.

Oeneis chryxus:

284. Cedar Mtn, SW of Green Rvr, SWEETWATER [sic] Co, WY, Jul 1965, GMS, 1 fresh pair. GMS.

Oeneis jutta reducta:

285. McKee Draw, DAGGETT Co, UT (confirmatory), 31 Jul 1982, KBT. KBT.

Danaus plexippus:

286. Cuprum, ADAMS Co, ID, 19 Jul 1958, WC. BSU.

287. Payette, PAYETTE Co, ID, 3 Sep 1953, WC. BSU.

288. Sweet, GEM Co, ID, 5 Sep 1975, C. M. Sower. BSU.

289. Amarillo, POTTER Co, TX, 12 Aug 1977, REH. BYU.

Danaus gilippus strigosus:

290. San Rafael Cg, EMERY Co, UT, 30 Jun 1992, B. O. Huntsman, 1 fresh male. BYU.

291. Amarillo, POTTER Co, TX, 12 Aug 1977, REH. BYU.

292. Osage Cg, 13 mi W of Bartlesville, OSAGE Co, OK, 24 Jul 1981, KB. BYU.

293. Ogden Cn, WEBER Co, UT, 14 Aug 1933, ADB, 1 worn male. BYU.

Summary is on the next page.

Bf CRs ex ID/UT collections, pl0

The following matrix is a summary of the data listed in the previous 9 pages, deleting the 8 records that are considered unlikely/impossible.

I wish to thank the many people who made this busy week such a successful one, including the following in somewhat random order: Kit Stanford, Linda Stanford, Braxton Lathrop, Judy Tate, Fred Nijhout, Steve Wood, Richard Baumann, Cliff Miles, Natalie Miles, Nicole Miles, Vanessa Miles, Bethany Miles, Joel Johnson, Jane Johnson, Steve Sommerfeld and his family, Ken Tidwell and his family, George Stephens, Gaile Lippincott, Bill Clark and his family, Bob and Eleanor Chehey, Nancy Morris, Karl Cannon, Charles Baker, Stephanie McKown, Ron McKown, Erin McKown, Shannon McKown, and Johann Sebastian Bach. And, of course, the many early naturalists who provided the stimulation for this study, including Linnaeus, Fabricius, Bates, Abbot, Franklin, Darwin, Abbot, Abert, Agassiz (not a tennis player), Baird, Brewer, Bell, Bullock, Clinton (long ago), Cassin, Comstock, Dall, Douglas, Drummond, Evans, Engelmann, Grey, Torrey, Forster, Fendler, Gambel, Gunnison, Harris (not my grandfather), Muhlenberg, Palmer, Rudbeck, Rudkin, Say, Steller, Audubon, Burbank, Muir, Townsend, Thoreau, Uhler, Wislizenus, Watson, Yarrow, Annette Braun, F. Martin Brown, MacGlashan, Herlan, Harjes, Opler, Hughes and Scott. Thanks to these and all.

Omnibus, Amen!

The 20 prairie counties alone are now 1615/1742, or 92.71% of projection.

They are now better-known than the mountain counties !!!

Thanks to many, especially FMB, JDE, SLE, MEE, CDF, MSF, PAO, DEP, MGP, RMP, JAS, KAS, ADW, . . . .

**Bold face type denotes poorly-known counties [surprised by a few of them?!].**

Ray E. Stanford, Denver, Colorado [phone 303-377-1332].

**ASCENDE OMNEM MONTEM!!**

Small letter key: a=all but 1 county; b=all but 2; c=all but 3; d=all but 4; e=all but 5.

Species lists: All Counties list, followed by lists a,b,c,d,e, and comments if any:

**AZ:** funeralis, communis CPX, aurantiacus, phyleus, campestris, philenor, polyxenes, protodice, sara, eurytheme, cesonia, sennae, mexicana, nicippe, iole, halesus, leda, melinus, exile, marina, isola, ladon, mormo CPX, carinenta CPX, claudia, lacinia, chalcedona CPX, antiopa, atalanta, virginienensis, cardui, annabella, coenia, nigrosuffusa, bredowii, plexippus, gilippus, 37. a: catullus LP, multicaudatus Yu, sisymbrii Yu, ceraunus Ap, fulvia Yu, chalcedona CPX SC, astyanax Yu. b: zampa Ap Cn, brizo LP Yu, meridianus LP Yu, ericetorum SC Yu, nesus LP Yu, pahaska LP Yu, eufala Ap Cn, cressphontes Ap Na, rapae LP Yu, cethura Ap Na, siva LP Yu, acmon CPX LP Yu, nemesis Ap Na, palmerii Ap Na, arachne LP Yu, acastus CPX LP SC, mylitta LP Yu. c: clarus, leo, dorus, pylades, alpheus, aryna CPX, hyantis, spinetorum, augustinus, battoides CPX, vanillae, theona, texana, pictus, satyrus, archippus, celtis, pertepida, patrobas. d: pacuvius, scriptura, libya, deva, lunus, aenus, yuccae, philodice, crysalus, quaderna, amyntula, rita CPX, zela, dymas, elada. e: taxiles, vierecki, pittacus, python, simaethis, dumetorum CPX, N californica, leilia, rubricata. NOTE: about 70 of these 102 spp should be found in all counties; most missing only LP+Yu or Ap+Na will not be found easily in all AZ counties [RAB, KR].

**CA:** communis CPX, protodice, rapae, eurytheme, acmon, antiopa, atalanta, virginienensis, cardui, annabella, coenia, plexippus, 12. a: zelicaon Im, rutulus Im, sara Mer, helloides Im, melinus La, mylitta Im, N californica Mer, bredowii Ki, tullia CPX Im. b: propertius Im Ki, sabuleti DN Hu, sylvanoides Im Ki, augustinus Ki Mer, lygdamus Ki Mer, chalcedona Ki Mer, lorquini Im Ki. c: eurymedon, sylvinum. d: californicum, saepium. e: A. campestris, halesus, ladon. NOTE: about half of these 38 spp will not be found in Im [DKF, RLL, KR, RES], so only about 20 spp will ever be found in all counties. Several other states have an "Achilles heel" county [Is WA, Kio CO, Yu AZ, Le NM].

**CO:** protodice, rapae, philodice, eurytheme, iole, isola, claudia, antiopa, cardui, 9. a: communis Lk, P melissa SJ. b: P occidentalis Ac Cy, acmon CPX Hi SJ, atalanta DI SJ. c: multicaudatus. d: milberti, plexippus. e: uncas, pulchella=pratensis, annabella. NOTE: only these 20, and perhaps 3 other spp, are possible for all counties because of the high continental divide barrier.

**ID:** eurytheme only. d: rutulus, philodice, cardui. e: helloides, tullia CPX. There are about 20 species which should be found in every county.

**KS:** communis, catullus, campestris, protodice, rapae, philodice, eurytheme, iole, melinus, comyntas, claudia, tharos, interrogationis, atalanta, cardui, plexippus, 16. a: polyxenes Hodg, gorgone Craw, virginienensis Lane, archippus Wich. d: pegala. NOTE: About 25 spp should be found in all counties, as is true also for the other prairie states. [over]

**MT:** *P. occidentalis*, *rapae*, *philodice*, *eurytheme*, *helooides*, *lygdamus*, *melissa*, *antiopa*, *cardui*, *pegala*, 10. a: *communis* Li, *saepiolus* Sh, *tullia* CPX Gf. b: *milberti* Mc Ri. e: *comma*, *sylvanoides*, *atalanta*. NOTE: About 20 spp should be found in all counties, like CA/CO, so few because of the huge diversity of habitats, and for CO and MT, the high continental divide.

**NE:** *eurytheme* only. a: *rapae* Wh. c: *comyntas*. d: *atalanta*. e: *philodice*, *plexippus*. NOTE: About 25 spp are likely to be found in all 93 counties.

**NV:** *communis* CPX, *ericetorum*, *juba*, *comma*, *sabuleti*, *rutulus*, *beckerii*, *sisymbrii*, *protodice*, *rapae*, *hyantis*, *sara*, *philodice*, *eurytheme*, *alexandra*, *iole*, *helooides*, *behrii*, *siva*, *melinus*, *exile*, *marina*, *amyntula*, *ladon*, *battoides* CPX, *enoptes* CPX, *lygdamus*, *melissa*, *icarioides*, *acmon* CPX, *mormo* CPX, *acastus* CPX, *mylitta*, *chalcedona* CPX, *gracilis*, *antiopa*, *californica*, *milberti*, *atalanta*, *cardui*, *virginiensis*, *annabella*, *coenia*, *sthenele* CPX, *plexippus*, *gilippus*, 46. a: *multicaudatus* Es, *P. occidentalis* Cl, *arota* Cl, *rubida* Cl, *heteronea* Cl, *sylvinum* Cl, *sheridanii* CPX WP, *piasus* Cl, *lupini* Li, *shasta* St, *zerene* Ly, *leanira* El, *pulchella=pratensis* Cl, *satyrus* Mi, *oetus* Cl. b: *libya* Ca St, *sylvanoides* Cl Es, *zelicaon* Cl Mi, *indra* Eu St, *menapia* Es Pe, *californicum* Ch Cl, *eryphon* Hu Pe, *isola* Hu St, *zerene* Es Ly, *callippe* Cl Es. c: *uncas*, *ausonides*, *spinetorum*, *saepiolus*, *tullia* CPX. d: *yuma*, *coronis*, *pegala*. e: *cesonia*, *rita* CPX, *weidemeyerii*, *ridingsii*. NOTE: Of these 82 spp, only about 60 are expected in all counties; Clark Co is very well known [GTA].

**NM:** *brizo*, *communis* CPX, *polyxenes*, *protodice*, *rapae*, *philodice*, *eurytheme*, *nicippe*, *iole*, *melinus*, *marina*, *isola*, *acmon* CPX, *claudia*, *antiopa*, *atalanta*, *virginiensis*, *cardui*, *plexippus*, 19. a: *cesonia* LA, *siva* Le. b: *multicaudatus* Cu Le, *fulvia* DB LA, *gilippus* LA Va. c: *pahaska*, *viridis*, *mexicana*, *exile*, *melissa*, *carinenta* CPX. d: *funeralis*, *catullus*, *uncas*, *coenia*. e: *vierecki*, *pictus*, *mylitta*, *annabella*, *pertepida*. NOTE: About 42 spp should be found in all counties; 60 or more in all excluding Lea County!

**ND:** Best county numbers [1996]: *philodice* 44, *pegala* 41, *eurytheme* 39, *rapae* 36, *melissa* 36, *claudia* 35, *aphrodite* 34, *tharos* 34. *tullia* CPX 34, *cardui* 33, *communis* 30, *plexippus* 30, *protodice* 29, *cybele* 29, *mystic* 28, *logan* 28, *hyllus* 28, *atalanta* 28, *garita* 27, *archippus* 27, *antiopa* 26. At least 20 species should be found in all counties, perhaps as many as 30. Please give RAR some help!!

**OK:** *eurytheme* only. c: *tharos*. e: *pegala*. NOTE: See KS,NE,SD. About 24 species should be found easily in all counties.

**OR:** *sylvanoides*, *zelicaon*, *rutulus*, *rapae*, *eurytheme*, *lygdamus*, *mylitta*, *antiopa*, *atalanta*, *cardui*, 10. a: *sara* Lc, *helooides* Cs, *hydaspe* Sh, *milberti* Cs, *annabella* Gi, *lorquini* Sh, *tullia* CPX Ti, *pegala* Ti. b: *eurymedon* Gi Sh, *ladon* Mal Mo, *zerene* Col Wash, *satyrus* Cs HR, *californica* Gi Sh, *plexippus* Col Lc. c: *juba*, *menapia*. d: *melinus*, *icarioides*, *acmon* CPX, *cybele*, *chalcedona* CPX. e: *napi* CPX. NOTE: Not all of these 32 spp will be found everywhere, but about 20-25 are likely in all counties. The limiting factor here and in WA is the fogbound coastal counties with a monoculture of Douglas Fir forests and nearly zero sunlight.

**SD:** *eurytheme*, *cardui*. a: *rapae* Per, *philodice* BH, *pegala* Mnr. d: *melissa* [blue], *tharos*. e: *idalia*, *atalanta*. NOTE: About 25 spp should be found in all counties [see KS note].

**TX:** This and ND are the worst-known western states, but unlike ND the TX county totals run from 0 to 251 spp [the latter more than any STATES except AZ 333, NM 314, and CO 268]. The bf known from the most TX counties is *C. eurytheme*, 213/254, and only 16 other spp are known from over half of the counties. Want a thousand CRs in a single season? Try the "panhandle" !!!!!

**UT:** *communis*, *comma*, *sylvanoides*, *zelicaon*, *rutulus*, *multicaudatus*, *beckerii*, *sisymbrii*, *protodice*, *occidentalis*, *napi* CPX, *rapae*, *ausonides*, *sara*, *philodice*, *eurytheme*, *alexandra*, *helooides*, *crysalus*, *behrii*, *sylvinum*, *siva*, *ladon* CPX, *amyntula*, *lygdamus*, *melissa*, *icarioides*, *atlantis* CPX, *mormonia*, *acastus* CPX, *tharos* CPX, *pulchella=pratensis*, *chalcedona* CPX, *satyrus*, *gracilis*, *antiopa*, *milberti*, *atalanta*, *cardui*, *annabella*, *weidemeyerii*, *tullia* CPX, *oetus*, *plexippus*, 44. a: *juba* Wy, *sabuleti* Ka, *heteronea* Wash, *piasus* Sa, *saepiolus* Dv, *cocyta=selenis* Wy, *pallidus* Gr. b: none. c: *machaon=bairdii*, *coronis*, *sthenele* CPX. d: *T. mexicanus*, *telemachus*, *indra*, *eryphon*, *mormo* CPX, *mylitta*, *chryxus*. e: *iole*, *arota*, *acmon*. NOTE: Most of these 62 spp should be found in all counties. A few of them will not be found in Washington Co, but a few others [like *melinus*] will be recorded everywhere, probably within 20 years.

**WA:** *sylvanoides*, *rutulus*, *rapae*, *helooides*, *mylitta*, *cardui*, *lorquini*, 7. a: *zelicaon* Cw, *satyrus* Fr, *antiopa* Je. b: *sara* Fr Pa., *ladon* Ad Fr, *lygdamus* Pa Wah, *milberti* Cow GH. c: *eurymedon*, *pegala*. d: *melinus*, *atalanta*, *tullia* CPX. e: *augustinus*, *N. californica*, *annabella*. NOTE: As in Oregon and Idaho, about 20-25 species will probably be recorded from all counties.

**WY:** *communis*, *comma*, *protodice*, *occidentalis*, *rapae*, *philodice*, *eurytheme*, *helooides*, *lygdamus*, *melissa*, *icarioides*, *acmon* CPX, *claudia*, [tharos CPX], *antiopa*, *milberti*, *atalanta*, *cardui*, *tullia* CPX, *plexippus*, 19. a: *garita* BH, *zelicaon* Wa, *ausonides* Go, *alexandra* BH, *coronis* Ui, *chalcedona* CPX Go, *gracilis* Ni, *weidemeyerii* Cm, *pegala* Cbn, *oetus* Go. b: *multicaudatus* Cbn Sw, *saepiolus* Go Ni, *callippe* Go Ni. c: *persius*, *phoebus=smintheus*, *rubida*, *heteronea*, *eryphon*, *Sp. edwardsii*, *pulchella=pratensis*. d: *sylvanoides*, *siva*, *amyntula*, *shasta*, *mormonia*, *ridingsii*, *uhleri*. e: *glandon* CPX, *zerene*. NOTE: These 48 and several other spp should be found in all Wyoming counties, because the continental divide breaks down between MT and CO, allowing both eastward and westward streaming of biota. I predict that OVER 60 species will be found in all 24 counties, surpassing all other western states except AZ, NV and UT. Currently, those all-county species totals are WY 20, AZ 37, UT 44, NV 46 [NM has 19].

**FINAL COMMENTS:** No species are yet known from all western counties, even if TX is excluded. The best-known is *Colias eurytheme*, known from all but 63 counties. It is also known from all western states, provinces, and northern Mexican states; the ONLY other 3 species sharing that distinction are *Pontia protodice*, *Strymon melinus*, and *Celastrina ladon*. There should be over 20 such species! We have far to go and much to learn, amigos. RES, 1 April 1998.

The 20 prairie counties [p] alone are now 1619/1746, or 92.7% of projection.

They are now better-known than the mountain counties !!!

Thanks to many, especially FMB, JDE, SLE, MEE, CDF, MSF, PAO, DEP, MGP, RMP, JAS, KAS, ADW, . . . . .

[print # 6]

**Boldface type denotes counties less than 90% of projection [surprised by a few of them]? !!!**

Ray E. Stanford, Denver, Colorado [phone 303-377-1332].

**ASCENDE OMNEM MONTEM!!**

[over]

**COLORADO Butterfly County Record Hitlist. 18th revision R. E. Stanford. 5 March 1998.**
