Artist Statement:

My art is the result of my perceptions, filtered through my intuition and created using mixed media. My intention is to create art that provokes visual sensations in the viewer. Whatever the viewer takes from my work is none of my business. My pieces in this space reflect abstract and instinctive urban art with a concentration on graffiti and street experiences. Much of my art throughout has a masculine, and even working class focus, yet it is often balanced with feminine language and pastel colors. Much gratitude for taking the time to view my work.
